EXECUTIVE SUMMARY

Master’s student in Data & AI with hands-on experience in Data Science, Machine Learning, and Artificial Intelligence. Recently completed an internship at Stellantis as an AI Governance Assistant, contributing to responsible AI practices, compliance, and governance frameworks. Looking for an Internship from February-2026.

WORK EXPERIENCE

**Stellantis**  
*AI Governance Assistant | Internship*

Learned about Responsible AI and importance of AI Governance in AI Use Cases.

- Studied EU AI Act
- Engaged in implementing external Risk Assessment tool in Stellantis environment
- Created and published content for AI governance for the company's Intranet
- Participated in AI Governance meetings to review AI ideas
- Developed Key Performance Indicators (KPIs)dashboards tracking numbers of ideas for each business domain.

**Paris, France**  
*April 2025 – September 2025*

**Wordex Infotech**  
*Data Analytics*

- Built and optimized scalable data pipelines for processing large datasets, improving data accuracy by 20% and workflow efficiency.
- Designed interactive dashboards using Python and data visualization tools (e.g., Matplotlib, Seaborn), enabling data-driven decisions for clients.
- Leveraged SQL and statistical methods to uncover patterns, conduct trend analysis, and solve business challenges effectively.

**Surat, India**  
*December 2022 – April 2024*

ACADEMIC PROJECTS

**AI for Predicting Sales of GIFEC companies (Subject – PP)**  
*Leading Data and AI student*

- Developed a forecasting model using KNN, Random Forest, and Decision Trees, achieving 70% accuracy initially.
- Enhanced prediction by integrating geographical & complex data, aiming for improved precision.

**AI for Reducing Air Pollution (Subject – Green AI)**  
*Leader*

- Led a team of 4 in analyzing New Delhi’s air quality dataset.
- Applied Random Forest Algorithm, achieving 0.94 R<sup>2</sup>, leading to insights for sustainable urban policies.

EDUCATION

**ESILV - Ecole Supérieure d'Ingénieurs Léonard de Vinci**  
*Master of Engineering in Data and Artificial Intelligence*  
Coursework: ML OPS, Data Analytics, Deep Learning & Neural Networks, AI Algorithms.

**Paris, France**  
*2024-2026*

**RK University**  
*Bachelor of Computer Applications (GPA 3.06/4.0)*

**Rajkot, India**  
*2019-2022*

SKILLS

**AI Governance & Responsible AI:** Model Risk Assessment, Compliance Frameworks, Bias & Fairness Evaluation, Documentation Standards (Model Cards, Datasheets)  
**Programming & Tools:** Python, SQL, Jupyter Notebooks, Google Colab, OpenAI APIs (GPT-4)  
**Machine Learning & AI:** Supervised & Unsupervised Learning (Regression, SVM, KNN, Decision Trees, Random Forests); Model Evaluation & Monitoring  
**Data Handling & Processing:** Pandas, NumPy, Data Wrangling, Large Dataset Optimization  
**Visualization:** Matplotlib, Seaborn, Dashboard Design, Data Storytelling
